

Flowrz Delivery Driver App Features

1. Driver Authentication & Profile

- **Secure Login:** Drivers sign in with secure credentials.
 - **Profile Management:** Update contact details, availability status, and vehicle information.
-

2. Dashboard & Order List

- **Centralized Dashboard:** View all assigned deliveries at a glance.
 - **Order Details:** Access pickup and drop-off locations, customer notes, and specific delivery instructions.
-

3. Real-Time GPS Tracking & Navigation

- **Live Tracking:** Real-time map view of the driver's location and progress.
 - **Route Optimization:** Integrated navigation for the most efficient routes using popular mapping services.
-

4. Live Order Status Updates

- **Status Change Options:** Easily update order status (e.g., "Picked Up," "In Transit," "Delivered") in real-time.
 - **Instant Syncing:** Immediate updates to the central system for accurate order tracking.
-

5. In-App Notifications & Alerts

- **Push Notifications:** Receive alerts for new orders, last-minute changes, or important updates.
 - **Traffic & Route Alerts:** Get real-time notifications regarding traffic conditions or route adjustments.
-

6. Delivery Confirmation Tools

- **Proof of Delivery:** Capture digital signatures or photos to confirm successful deliveries.
 - **Confirmation Codes:** Use delivery codes to ensure the correct recipient receives the order.
-

7. Order Details & Special Instructions

- **Detailed Order View:** Access comprehensive order information, including any special delivery instructions.
 - **Customer Contact:** Direct communication options for clarifications or updates as needed.
-

8. Offline Functionality

- **Local Data Caching:** Continue navigating and managing orders even in areas with limited connectivity.
 - **Seamless Syncing:** Automatically update order status and details once an internet connection is re-established.
-

9. In-App Communication

- **Direct Messaging/Calling:** Easily contact dispatch or support to resolve issues or get assistance during deliveries.
- **Real-Time Assistance:** Get prompt help with any on-road challenges or order-related queries.
